

Part Seven

INDEX NUMBERS

الباب السابع

الارقام القياسية

Part Seven Index Numbers

Index numbers constitute one of the most important statistical tools and indicators approved for monitoring and evaluating the pace of changes occurring in various economic and social phenomena over time, by measuring and relating them to a fixed base year.

This chapter comprises the standard statistical indicators concerned with measuring inflation and economic activity. It focuses primarily on the Consumer Price Index (CPI) as the core measure of inflation, alongside providing a comprehensive numerical presentation of the indices for industrial, agricultural, and construction activities, followed by the indices governing imports and exports.

This section also includes purchasing power parities (PPP) for ESCWA- countries from International Comparison Program session 2005 and 2011.

الباب السابع الأرقام القياسية

تشكل الأرقام القياسية أحد أهم الأدوات والمؤشرات الإحصائية المعتمدة لرصد وتقييم وتيرة التغيرات الحاصلة في مختلف الظواهر الاقتصادية والاجتماعية عبر الزمن، وذلك من خلال قياسها ونسبتها إلى سنة أساس ثابتة.

يضم هذا الباب المؤشرات الإحصائية القياسية المعنية بقياس التضخم والنشاط الاقتصادي، حيث يركز أولاً على الأرقام القياسية لأسعار المستهلك (CPI) باعتبارها المقياس الأساسي للتضخم، إلى جانب تقديم قراءة رقمية شاملة للأرقام القياسية الخاصة بالأنشطة الصناعية والزراعية وحركة البناء والتشييد، متبوعة بالأرقام القياسية المنظمة للإستيرادات والصادرات

كما يتضمن الباب مكافئات القوى الشرائية (PPP) لبلدان منطقة الاسكوا من نتائج برنامج المقارنات الدولية دورة 2005 ودورة 2011.
